Addressees:

The enclosed, updated report for Market Sample 33 replaces the draft mailed March 11. During the 30 day review period, Philip Morris requested retesting of five brands: Alpine KFMSP, Benson & Hedges 100's Menthol 100FMSP, Benson & Hedges Deluxe Ultra Lights 100's Menthol 100FMHP, Marlboro Lights KFHP, and Parliament Lights KFHP. Liggett Group Inc. requested retesting of four brands: Pyramid Full Flavor KFSP, Pyramid Full Flavor KFMSP, Pyramid Full Flavor 100FSP, and Pyramid Full Flavor 100FMSP. The new values for these brands are the ones now listed in the report.

Starting with this report, updated files containing TITL results will be sent on a 1.2 MB, 5.25 in, MSDOS formatted, floppy disk. Two of the files are in Lotus .wk1 format--one contains TPM, Water, and Puff Counts in addition to Tar, Nicotine, and CO--the other contains the rounded Tar, Nicotine, and CO values. These should be readable by most spreadsheet programs; however, the same information is also provided in ASCII files (with a .csv extension) with commas delimiting the data fields.

Yours truly,

William L. Steele
